

I'm concerned about possibly losing my favorite radio station, K-Love to LPFM. K-Love is the only station around that does not have commercials & contains clean uplifting music 24/7. I am director of a local pregnancy care center and keep the radio on K-Love all day. They promote wholesome values and are always encouraging and positive; something helpful when dealing with my clientele. Here in WY, we don't have many broadcast stations and rely on translators in many areas. To lose K-Love would hinder my ability to serve this community and find personal encouragement in the difficult ministry I run. All my friends and coworkers listen to K-Love and I know of several businesses that also keep their dial tuned to K-Love. There is so much trash on the air nowadays, please don't take the one thing that ANYONE can listen to ANYTIME without worry.
